HW VENTILATION APPOINTS FANS AND BLOWERS AS OFFICIAL UK DISTRIBUTOR

BRINGING ITALIAN ENGINEERING EXCELLENCE CLOSER TO UK CUSTOMERS

Rescaldina, 01/09/2025

HW VENTILATION is proud to announce the appointment of **FANS AND BLOWERS** as our **official distributor in the United Kingdom**. This strategic partnership marks an exciting new phase in our commitment to delivering high-performance axial fans and air movement solutions across key industrial sectors in the UK.

Based in Rescaldina, near Milan, HW VENTILATION has been a leading manufacturer of axial fans and impellers since the early 1980s. Our range of axial fans is trusted globally across diverse applications—from compressors and radiators to greenhouses, livestock ventilation, dryers, cooling towers, and even hovercrafts. All our products are designed and engineered in Italy and comply with **ISO 9001** quality standards.

A smooth transition and continued expertise

This transition comes as **Mr. Geoff Orrill of Cloverfield Products** steps into retirement after many years of valuable partnership. We are deeply grateful for Geoff's long-standing support and dedication. While he steps back from the day-to-day role, Geoff will continue to lend his experience and insights to ensure a smooth handover for customers and partners.

We are confident that **FANS AND BLOWERS**, under the leadership of **Managing Director James Newey**, with **Duncan Keates** as technical contact, will build upon this legacy and further enhance support for both existing and new customers in the region.

What this means for UK customers

FANS AND BLOWERS now offer **direct access to the full HW VENTILATION product range**. UK customers can expect:

- Fast, knowledgeable support
- Expert guidance in selecting the right fan
- Access to high-quality, reliable solutions designed for demanding environments

Our axial fans are engineered to deliver **maximum efficiency, low noise, and robust performance**, even under extreme temperatures and challenging industrial conditions. Whether for industrial ventilation, cooling systems, or custom air movement needs, HW VENTILATION products are now easier to access than ever before in the UK.

Available now through FANS AND BLOWERS

We invite our UK customers to explore the **complete HW VENTILATION range** now available through FANS AND BLOWERS. Their experienced team is ready to assist with product selection, technical specifications, and tailored advice to meet a wide range of industrial requirements.

Looking ahead

This collaboration marks a significant step in HW VENTILATION 's growth across the UK market. With FANS AND BLOWERS as our official distributor, we are confident in our ability to deliver **premium air movement solutions** and unmatched customer support.

To discover more about our fans or to get in touch with the UK distributor, visit the FANS AND BLOWERS website or contact their team directly.
