

## LARGE FANS

CUSTOMIZED SOLUTIONS FOR AXIAL IMPELLERS WITH DIAMETERS UP TO 2000MM.

**DIAM.** Up to 2m mm

### **Large diameter impellers (up to 2m diameter) for cooling towers and other applications**

HW Ventilation offers customized solutions for applications which require axial impellers with diameters larger than 1280mm and up to 2000mm.

**Impeller materials:** Aluminum, Polypropylene, ATEX

**Applications:** ventilators for tunnels, ventilators for subways, cooling towers, radiators, heat exchangers, wind tunnels

Contact us now with any inquiry, and we will help design and manufacture the best solution for your needs.
